

What are we learning in Reception this week?

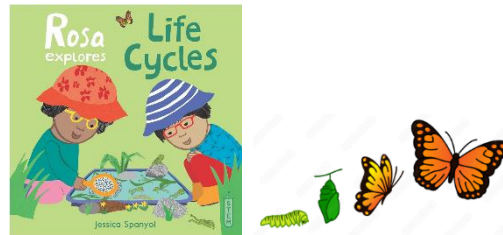

Scholastic Travelling Books' Book Fair all this week!

Tricky words of the week:

Our structured story:

Rosa explores Life Cycles

all	are
sure	pure

Mathematics

We will continue to develop our knowledge of 'part-part-whole'.

"I can see ___ within the whole. This is the part of the whole. I can see the other part is ___. Altogether the two parts make the whole ___."

We will also be practising our formation of written numbers zero to ten.

Expressive Art & Design

We will explore and use different materials to create each stage of the life cycle. We will develop storylines in play based on the lifecycle of a frog. How can we make the different parts of the tadpole, froglet or frog out of junk?

Communication, Language and Literacy

We will be developing our vocabulary and oracy skills by learning new language such as: *life cycle, frogspawn, tadpole, froglet, webbed, observe, amphibian, survive, embryo, gills, surface*

Understanding the World

Do you know what a life cycle is? Where do frogs live? What can a tadpole do that a frog can't? What can a frog or froglet do that a tadpole can't? What makes you special and unique?

Personal, Social & Emotional

We will be talking about what money is and discuss the coins and notes we might already know.

LeaderinMe

We will be talking about how we can describe what a goal is and why leaders have goals

Phonics boom reader

We will be reviewing oi (boing), ear (hear), air (chair), er (digger)

We will be spelling words with double letters such as: letter, hammer, bigger, rabbit

Read at least 3 x per week with your child and add to Boom Reader!

Physical Development

Ball Skills
Hands 2

Dance:
Nursery Rhymes

Ball skills - Mr Passade - Monday (come to school in kit)

Dance - Miss Yates/ Ms Rieck - Friday (get changed in
