

What are we learning in Reception this week?

We have a visitor from the Synagogue on Monday!

Our structured story:
Mrs Noah's Garden

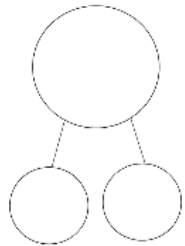

We are reviewing all our Spring Tricky words!

Mathematics

This week we are using part, part, whole models to visually represent our maths problems.

This will help the children to have automatic recall of number bonds to 5 and some to 10.

Expressive Art & Design

We will begin to represent ideas on paper, using a 'design sheet' before modelling or constructing.

We will also be designing a garden for Mrs Noah's new home.

Communication, Language and Literacy

We will be developing our vocabulary and oracy skills by learning new language such as: *clung, ancient, shoots, weaving, shallow drills, germinate, marvelled, blossomed*

Understanding the World

What is the story of Noah's Ark? Who is Noah? What is an ark? Have you visited a garden? Do you know what gardening is? Who do you know that does gardening?

Personal, Social & Emotional

We will be taking about to take good care of ourselves and others. We will be thinking about the feelings of the people around us. Find attached our 'Taking Care of Ourselves and Others' checklist.

LeaderinMe

We will be describing something we want to learn or do and create a plan to reach a goal.

Phonics boom reader

We will be reading words without sound buttons and reading longer words using the chunking method.

We will be spelling words such as: food, hard, moon, coat, deep

Read at least 3 x per week with your child and add to Boom Reader!

Physical Development

We are working on securing our pencil grip!

We will be weaving like Mrs Noah

Ball skills - Mr Passade - Monday (come in kit)

Dance - Miss Yates/ Ms Rieck - Friday (change into shorts and t-shirt)
