

Moonlight:

Moonlight's ghostly gaze,
Her soft pewter kisses,
The safe cuddle she gives us when no warmth is
permitted,
When sleep escapes, no rest to be found,
Her beauty soothes me all around,
The moon is a ballerina,
Dancing in the spotlight of a darkened stage,
Selene watches over us,
Chasing dark away,
Her silent voice promises the dawn,
A new day will be born,
The subtle smile calms my fears,
A new day's light appears,

The End
