

What Are We Learning This Week?

Personal, Social and Emotional Development

This week, we will practise using our visual timetable as we begin to introduce more structured learning into our weekly routine.

Understanding the World

We will begin to learn and answer questions about the date and season. We will learn a song to help us remember the days of the week.

Book Of The Week

Expressive Arts and Design

We will practise creating hand prints using the three primary colours. We will observe what secondary colours we can create by mixing together two primary colours.

Maths

This half term, our focus is comparison. This week we will observe and compare objects that are 'the same' and 'different'.
