Let our children learn how to play the beautiful game of Chess!

Our Chess Coaching Services which we find unique – includes learning tactics, strategies and developing their knowledge in playing chess. They will build their competitive spirit and confidence in no time and will experience different ways of playing real time chess over the board so they engage.

Nothing like a bit of fun with our Elite and Stars Knockout Termly Chess Tournaments as well as accumulating points earned to reach the United Knights Levels from Pawns to King ... collecting certificates, stickers and chess pieces on their dedicated keyring along the way!

Playing chess games with other children will give them the ability to practise what they have learned and enables children to work at their own pace with no additional pressure. We match like for like so it's not overwhelming for any child. Slowly but surely, you will notice the great benefits your Child is gaining as demonstrated.

We invite you to register your child for the Summer Term 2026.
